

# Industrial Waste

Industrial waste is the waste produced by industrial activity which includes any material that is rendered useless during a manufacturing process such as that of factories, industries, mills, and mining operations. Industrial waste is the waste produced by industrial activity which includes any material that is rendered useless during a manufacturing process such as that of factories, industries, mills, and mining operations. Waste management is intended to reduce adverse effects of waste on human health, the environment or aesthetics.

Urban India (about 377 million people) generates 62 million tonnes of municipal solid waste each year, of this about 43 million tonnes (70%) is collected and 11.9 million tonnes (20%) is treated. About 31 million tonnes (50%) is dumped in landfill sites. Recycling of one tonne of steel scrap saves 1.2 tonnes of iron ore, 0.7 tonnes of coal, 0.5 tonnes of limestone, 287 litres of fuel oil, 2.3 cubic meters of landfill, and is achieved through 40 per cent less water and with 58 per cent avoided CO<sub>2</sub> emissions.

## ABOUT US

**Our Services** : Industrial Waste management system provides a wide range of reuse and recycling services for all your used items (for eg electrical equipment, plastics ).

**Our Customers** : From large Industries and MSME to Households and schools we are proud to help businesses and the community to reuse and recycle their old items safely, securely, ethically and in an environmentally sound manner. for eg organic waste as manure

**Our Team** : We are technology focused Freshers organization having high skilled team members involved in sales, operations, technical services, reporting and administration.

**Compliance** : Industrial waste management system maintains compliance for the purchase and recycle of solid industrial waste from MSME and industries.

industrial waste management system is the fastest growing trend in the online Recycling and reusing space. We facilitate scrap material to government authorized recyclers at the best price.

# SERVICES

What we offer

INDUSTRIALIST/MSME

Industrialist sold their waste

Customers

Customers can buy waste acc to their need

Environment

Totally environment friendly

No Middle power

There is direct communication between users

Dispose

All resources are disposed carefully if needed

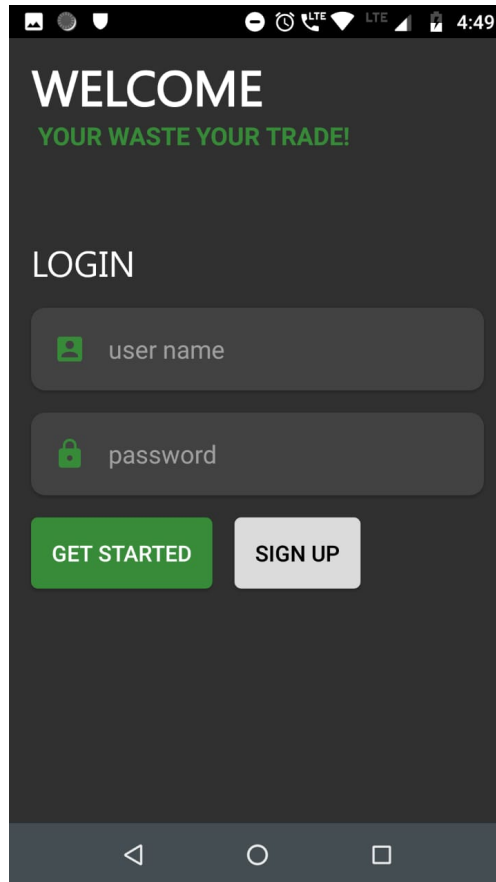

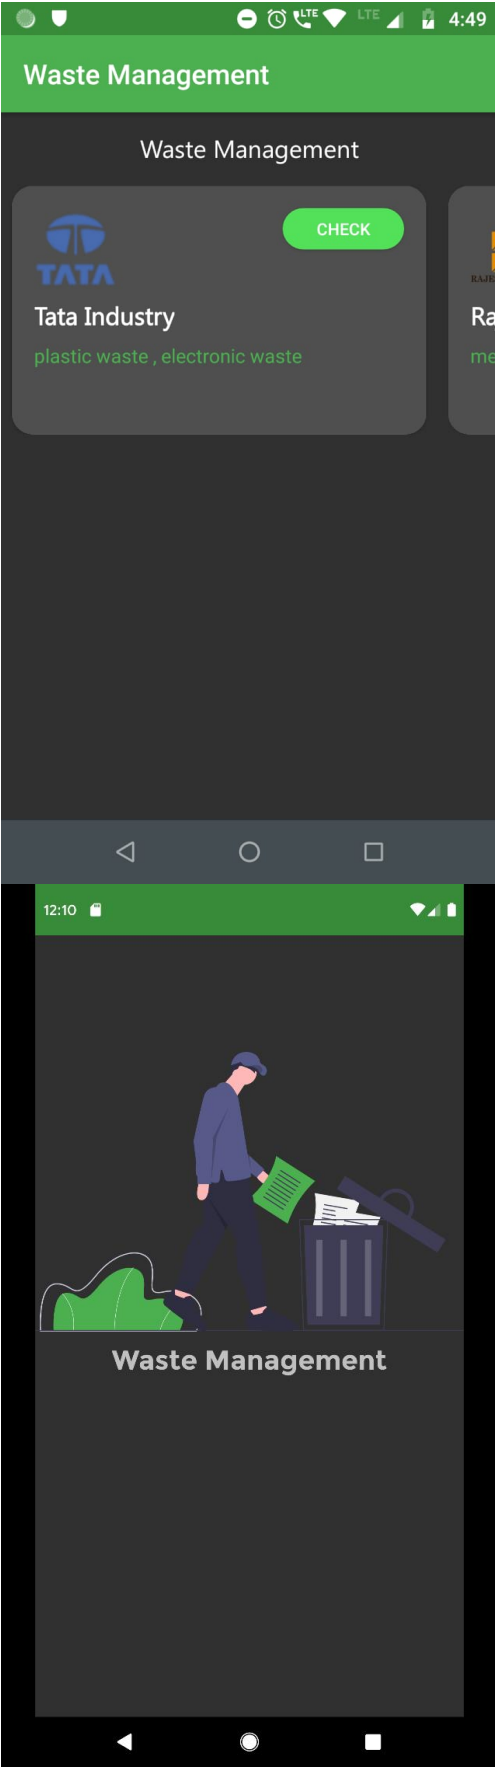

Reuse & Reuse

our main aim is promoting reuse and recycle

# PORTFOLIO

What we have created

WHAT OUR CUSTOMERS SAY

Past Record Sale

FIBERS

Max Price: 20,000

Amount 1 Ton

Min Price:1,000

Amount20 kg

Used for

Clothing

Pillow Covers

Thread

## E-Waste

**Max Price:** 5000

**Amount:**100 components

**Min price:** 500

**Amount:**10 components

### Used for

Reuse after filtering

Testing

Used in small projects

## Chemical waste

**Max Price:** 15000

**Amount:**20 chemical

**Min price:** 500

**Amount:**3 chemical

### Used for

Labs

Chemical industry

Medical

## RUBERS

**Max Price:** 30,000

**Amount** 1 Ton

**Min Price:**5000

**Amount**10 kg

## Used for

Tires production

Polymers composite

Energy Source

# Plastic

**Max Price:** 5000k

**Amount:**150 kg

**Min price:** 500

**Amount:**10 kf

## Used for

Packing

3-D printing

Contruction

# Organic Waste

**Max Price:** 5000k

**Amount:**100 components

**Min price:** 500**Amount:**10 components

## Used for

Reuse after filtering

Testing

Used in small projects
